VOL. III NO. 3

TONOPAH NEVADA, SATURDAY MORNING, OCTOBER 26, 1907.

PRICE 10 CENTS

BANKS WILL SOON OPEN

Efforts Being Made to Devise Some Method By Which Financial Institutions Can Resume Business.

John W. Langley, who came in from Reno yesterday, stated that a capitalist of that city had told him that Mr. Rickey would lend his financial aid to the banks that were under his control. As the days go by, the feeling becomes stronger that the State Bank and Trust Company will resume in a few days, and pay its de positors dollar for dollar.

An attempt was made yesterday in Goldfield to have a receiver appointed for the State Bank and Trust Company, but Judge Langan threw the motion out of court for the reason that a proper showing had not been made. A telegram was also received by Judge Langau from Attorney General Stoddard asking him when he could be at Carson to hear the application of the Bank Commissioners in the matter of appointing a receiver for the State Bank. His honor also received a telegram from T. B. Bickey, asking him to defer action in the matter, as he did not think that the appointment of a receiver would be necessary, the probability being that the bank would resume.

The law in the case of a receiver is that the State Bank Examiner shall examine the affairs of a bank, and report to the Bank Commissioners, comprising the Governor, Secretary of State, and the State Treasurer, as to the solvency of the concern. If the bank is found to be insolvent, the Bank Commissioners make application to the courts for the appointment of a receiver.

A number of the largest depositors of the State Bank and Trust Company met yesterday for the purpose of extending all the aid possible to the bank. It was agreed that they would accept the bank's paper for ninety days, and that they would put in more deposits. The depositors then got out with a petition to this effect, and had secured last night a great many more names of depositors.

In this city there is not the slightest doubt expressed as to the State Bank opening, and fulfilling all its obligations. There is not a depositor who has evinced any feeling of unea siness.

There have been rumors to the effect that there would be a general re-opening on Monday, but the more conservative men are not so sanguine as to that. Each bank here is one of a string of banks, and the gathering in of the reserves takes more time than if there were but one bank to consider. The news from Goldfield is to the effect that the John S. Cook bank will resume on Monday, but for the matter of that the Wingfield and Nixon banks did not want to close in the first place. They Dave in their Tonopah, Goldfield and Rhyolite houses more than enough in cash to pay all their depositors.

The officers of the Nye and Ormsby County banks have not yet de clared when they will be ready to re same. When they do resume, they

BANKERS ADVICE]]TO

Do a Cash Business.

[By Associated Press.]

NEW YORK, Oct. 25 .- Prices were generally pretty well sustained today, but weak spots constantly developed. It was said that the only buyers in the market were bears who had shorts to cover. The brokers who secured portions of the \$25,000,000 loaned late yesterday by the bankers pool found themselves in comfortable circumstances today and were allowed a renewal at the rate of 20 per cent. Bankers are said to be advising stockbrokers against undertaking any business except for cash, the effect being to relieve, so far, the money stringency. The amount of business done on this basis was surprisingly large and the amount of cash which changed hands in the brokers' offices during the day might afford a clue to the destination of some of the funds that were being withdrawn from deposits with banking institutions. The belief that the situation was clearing in the financial center here in New York was the paramount influence in the dwindling of runs on the Trust Company of America and its colonial branch, and was accepted as a subsidence of the greatest danger. Further deposits of government funds were made with the banks. Prices rose rapidly in the latter part of the day and closed strong at best prices. There was hope that by Monday when loans must be renewed, the situation would be so far cleared that the money stringency would be sensibly relaxed and a saner condition established. There was continued evidence of a painful liquidation in isolated stocks and the same was true in even a greater degree in the bond market. Some sensational declines of small transactions were thus occasioned. Bonds were weak. Total sales had a par value of \$4,556,000. United States 2's declined 1-8 and the 4's registered 1/2 per cent on call.

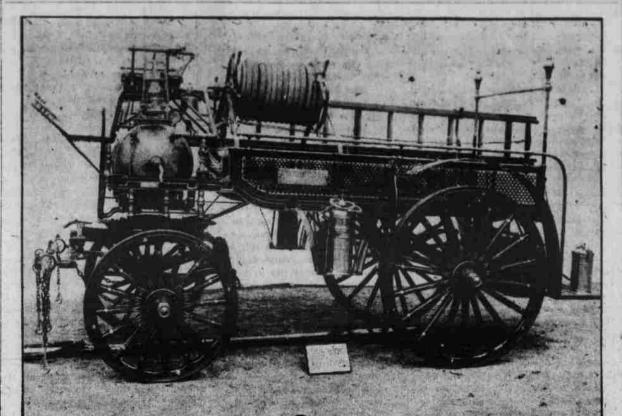

J. P. Morgan announced today that all who borrowed from him yesterday could come to the trough again today and get more. He expressed himself as believing that the crisis had passed and that the panic was practically over.

"Conditions are much better," he said, "and there is now little

doubt that a big panic will be averted."

The International Trust Company, a small concern, did not open its doors for the day. Reserves of gold are still being rushed in from outside points.

London stocks are stronger than they were yesterday and there is a general feeling that the situation has cleared.

Tonopah's New Fire Apparatus Arrives

here yesterday, and was out on dress feet of hose in the town.

Tonopah's new fire wagon arrived new hose, and there are in all 3500 the door of the Bonanza, and there

What dld Charles M. Schwab . mean when he started to air his vocabulary about Nevada in San •

"I do not refer to all the peo-• ple in Nevada," he is quoted as • saying. "I mean the men who brought the mines of Nevada to • · New York."

Of course this makes some men feel easier, for there are some men in Nevada who have · never been to New York, and · • there are some who never had • any mines.

Donald B. Gillies, who is the representative of Schwab in this State. arrived home yesterday morning, and it was thought that he could clear up the matter. In fact, there were not a few people who thought that Mr. Schwab referred to Mr. Gillies, and possibly to Malcolm Macdonald, both of whom are interested with Mr. Schwab in his mining interests.

Mr. Gillies, instead of being able to throw any light on the matter, was as much in the dark as anyone

"I do not know what to think," he said. "I was as much surprised as was everybody else at reading his statement. I have no criticism to make of Mr. Schwab. I wired him immediately and received a wire, and then a letter in reply. Here is the telegram, and here is the letter which he wrote me. Further than this, I do not care to say anything." Here is the wire from Mr. Schwab:

French Naval Officer Is Under a Cloud STRIKERS A

PARIS, Oct. 25 .- The arrest of Ensign Charles Ullmo of the French navy at Toulon yesterday on the charge of being a spy. and who later confessed to having abstracted a secret naval signal book and naval cipher code, was followed today by the arrest at Vendome of an officer named Burton, who is charged with negotiating with the agent of a foreign power for the sale of military secrets. The arrests are creating a great stir. Ulimo is a Hebrew, and the papers term this case a second Dreyfus affair. It appears that Ulimo offered a certain document to the minister of marine for \$30,000, saying that unless his offer was accepted he would sell them to a foreign power. A dummy correspondence was begun, ending with Ullmo's capture. A search of his lodging revealed that he not only possessed the secret code signats, but was in possession of complete plans for a mobilization of the French navy, the location of harbor mines in the event of war, photographs of mechanism of the famous French 75-millimeters field gun, etc.
